# ADHESIVE ANCHOR INSTALLER CERTIFICATION EXAM

March 23-24, 2020  
Lititz, PA

# ADHESIVE ANCHOR INSTALLER

An Adhesive Anchor Installer is an individual who has demonstrated the ability to read, comprehend, and execute instructions to properly install adhesive anchors in concrete. The Adhesive Anchor Installer must also demonstrate possession of the knowledge to properly assess ambient conditions, concrete condition, materials, equipment, and tools for installing adhesive anchors and determine when it is appropriate to proceed with installation of an adhesive anchor or when additional guidance from a supervisor/foreman/project engineer is needed.

March 23-24, 2020

Rohrer's Incorporated  
16 Lititz Road  
Lititz, PA 17543

## CERTIFICATION REQUIREMENTS:

ACI will grant certification only to those applicants who obtain a passing grade on both the written examination and performance examinations.

1. The 90-minute written examination is closed-book and consists of 75 multiple-choice questions. To pass the written exam the examinee must attain a minimum score of 74%.
2. The performance examination consists of two parts, Part 1 (vertical down) and Part 2 (vertical up):
  - In Part 1, each examinee will be tasked with selecting, assembling, and using the proper tools, equipment and materials to drill and clean a vertical down hole in concrete, inject adhesive, and set an anchor to the proper depth and perpendicularity. The Examiner(s) will observe and evaluate the examinees' performance for proper procedure.
  - In Part 2, each examinee is required to inject clear tubes with adhesive in a vertical up orientation behind a blind to simulate a drilled hole in concrete using the piston plug method. The Examiner(s) will observe and evaluate the examinees' performance for proper procedure.

Following Part 1, the Examiner(s) will check the vertical down installation for proper depth and plumb; after the adhesive in the tubes injected in Part 2 has cured, the Examiner(s) will cross section them and evaluate the size and location of air voids to determine pass or fail. This program certifies candidates in the piston-plug method.

A set of instructions appropriate for the exam along with applicable Material Safety Data Sheets (MSDS) will be available for consultation by the examinee during both parts of the performance exam. Both parts of the performance must be successfully completed within one year or the entire performance examination must be re-taken.

Recertification is necessary every five years and requires successful completion of both the written and performance examinations.

More information on this exam is available at [https://www.concrete.org/Portals/0/Files/PDF/cpp\\_6801-17.pdf](https://www.concrete.org/Portals/0/Files/PDF/cpp_6801-17.pdf).

***Note: each registrant will receive an information packet which includes more details regarding the exam, arrival time, parking information, etc.***

# Adhesive Anchor Installer Certification Exam

- Class size is limited.
- Registration is accepted on a first-come, first paid basis.
- Study materials will not ship until payment is received.

## EXAM REGISTRATION - 3.23-24.20 - Lititz, PA

Registrant's Name	Registrant's Email	Registrant's Cell
Company Name	Company Phone	
Company Address	Company City/State/Zip	
Company Contact	Contact's Email	
<b><u>REGISTRANT'S SHIPPING ADDRESS FOR STUDY MATERIALS (if different from above)</u></b>		
Registrant's Shipping Address	Shipping City/State/Zip
